	1. 25X1	The Soviets have set up an airfield at Koksharovka (134-04, 44-33). The gas and oil supplies for this field are dispersed over fourteen separate areas. Figures on the field are as follows:  North-South runway:  Northeast-Southwest:  Width of both runways:  Ao7 kilometers (about 2.7 miles)  4 kilometers (about 2.4 miles)  approximately 300 meters (975 feet)	3
25X1	25X1	Note: AAF Aeronautical Chart #262 (1: 1,000,000) shows the Koksha field as a landing field with limited or no facilities, or one on which logi information is unavailable, as of February 1945. The alove figures are consexaggerated.)	and the
	2.	There are two hangars; one of them is underground adjacent to the field, and other is built in one of the mountains surrounding the field. The undergroundings contained twenty-four bembers, some of which were believed to be Germ Heinkels, and twenty-one single-seater fighters. The other hangar housed setten of the same type single-seater fighters.	nd .
25X1		Note: It is doubtful that the underground hangar is large enough contain twenty-four hombers and twenty-one fighters.)	to -
